\*Triumph Leasing Corporation pledges to donate 5% of all ground-level container profits to charity.

33,400 sf of existing buildings onsite, as well as building a new 10,000 sf, two-story structure to house the post office and offices and a new 2,200 sf building to house a new bistro.

Teaming with Cresset Development, William Jackson Associates, and O'Neil Pennoyer Architects, Erland is scheduled to complete the Lincoln Station redevelopment project in one year.

## CTA Awarded Public Works Project

### HKT Architects

Lexington, MA - CTA Construction Co Inc. has been awarded an \$18 million contract for the construction of an 87,000 sf new Department of Public Works facility in Lexington. The new facility includes administrative offices, locker rooms, central storage, shops, maintenance bays, vehicle prep, sand/salt storage building, and cold storage building.

The existing DPW facility will be demolished prior to construction. The

Department of Public Works is in the process of relocating to temporary facilities within Lexington.

Construction is expected to begin in November and completion is scheduled for April of 2009. The project includes environmentally friendly construction and the town of Lexington will be seeking LEED silver certification for the project.

The architect for the project is HKT Architects, Inc.

## Cabral-Baylies Square Funeral Home

New Bedford, MA - The Cabral-Baylies Square Funeral Home of yesterday is a thing of the past. In its place stands today's new, improved and expanded version of the landmark that dates back to the 1930s.

A major renovation project by Bufftree Building Company involved totally renovating the first floor, and converting the first floor of the adjacent three-family house into two new viewing rooms.

A new, two-level addition connects the two buildings and includes a garage, an

*Newly expanded Cabral-Baylies Funeral Home*

elevator and a showroom for caskets, urns and similar products.
